## VIN Licenses

**TCM Licenses are free for customers running V8.3.1 software (or later) and licensed TCMs are no longer displayed.**

Follow these steps to determine the VIN license status on your **FlashScan** .

1. Connect your **FlashScan** device to your PC.
2. Open the **EFILive V8 Scan and Tune** application.
3. Select the **[F7: License]** option in the left-hand pane.
4. Select **[F3: VINs]** to display VIN License details.

The screenshot shows the 'FlashScan and AutoCal Licensing' window. On the left, a sidebar has 'F3: VINs' selected. The main area displays a table of license information. The table has columns: Lic #, ECM, Engine Serial, and Engine VIN. The first four rows (Lic # 80-83) show used licenses with specific engine serials and VINs. From Lic # 84 onwards, the 'Engine Serial' column is empty and the 'Engine VIN' column says 'Available'. Red arrows point from text labels to these sections: 'Used Engine VIN Licenses' points to the first four rows, and 'Available Engine VIN Licenses' points to the rows starting from Lic # 84. Below the table, a 'Device Summary' box states: '84 used', '16 available', and '500 may be purchased'. At the bottom, there are fields for 'Auth Code' and 'Activation Code', and buttons for 'Generate Auth Code', 'Copy', 'Copy Info', 'Activate VIN License', and 'Purchase VIN License Activation Code(s)'. The 'Generate Auth Code' button is highlighted with a red box.
