Move files from PC to FlashScan V3

There are three methods to move tune files from your PC onto **FlashScan V3**;

Program Quick Setup *.bbx file via EFILive V8 Scan and Tune

The **[Program Quick Setup]** option programs all selected Scan, Tune, Switch, and DTC options, as well as selected device settings, BBX Quick Setup selections and tune files. Once the device is programmed, **FlashScan V3** is configured.

Please follow the Configure FlashScan for BBX guide and use the [Program Quick

Setup] o	ption.
