

## Move Files to/from FlashScan V3

EFILive Support - 2020-07-29 - FlashScan V3 Hardware Configuration

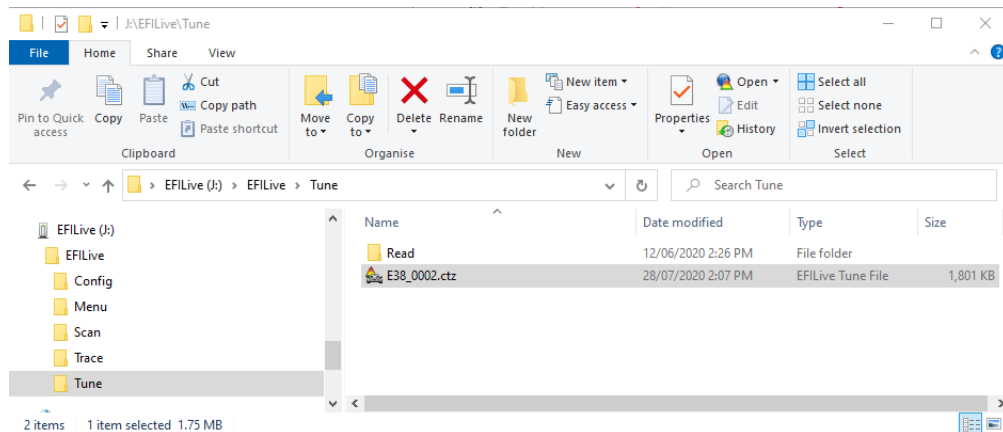

# Move files from FlashScan V3 to PC

There are two methods to move tune files from your **FlashScan V3** to PC;

Connect FlashScan V3 as a USB Thumb Drive to Windows Explorer

To move tune files and log files from FlashScan V3 onto your PC;

1. Connect **FlashScan V3** to your PC.
2. On **FlashScan V3** navigate to **Options -> File System -> USB Thumb Drive**.
3. Using **Windows Explorer**, locate the files you wish to copy in the correct folder of your FlashScan V3 and copy or drag the files into the desired folder on your PC.

## EFILive Explorer

To move tune files and log files from FlashScan V3 to your PC;

1. Connect **FlashScan V3** to your PC.
2. Open **EFILive Explorer**.
3. Navigate to the directory on your PC where you wish to save the file.
4. Navigate to: **[F3: Data Files]**.
5. Select appropriate folder on your FlashScan device and drag the selected file to your PC.

## Move files from PC to FlashScan V3

There are three methods to move tune files from your PC onto **FlashScan V3**;

Program Quick Setup \*.bbx file via EFLive V8 Scan and Tune

The **[Program Quick Setup]** option programs all selected Scan, Tune, Switch, and DTC options, as well as selected device settings, BBX Quick Setup selections and tune files.

Once the device is programmed, **FlashScan V3** is configured.

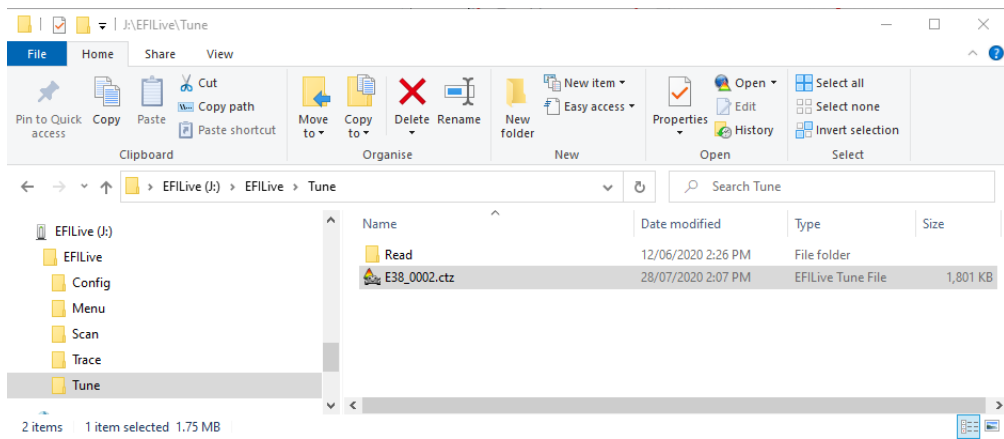

Please follow the [Configure FlashScan for BBX](#) guide and use the **[Program Quick Setup]** option.

Connect FlashScan V3 as a USB Thumb Drive to Windows Explorer

To place tune files from your PC onto FlashScan;
